TABLE OF CONTENTS

NUMBER 1, JANUARY 1975

Chamley, J H & Dowel, J J, Specificity of nerve fibre "attraction" to autonomic effector organs in tissue culture	1	Liedeman, R R, Matveyeva, N P, Vostricova, S A & Prilipko, L L, Extrinsic factors affecting the binding of acridine orange to the DNP complex of cell nuclei in different physiological states	105
Heby, O, Marton, L J, Zardi, L, Russell, D H & Baserga, R, Changes in polyamine metabolism in WI38 cells stimulated to proliferate	8	Dupuy-Coin, A M & Bouteille, M, Protein renewal in nuclear bodies, as studied by quantitative ultrastructural autoradiography	111
Böck, P, Goldenberg, H, Huttinger, M, Kolar, M & Kramar, R, Preparation and characterization of catalase-positive particles ("microperoxisomes") from Harder's gland of the rat	15	Zimmerman, A M & Laurence, H L, Induction of division synchrony in <i>Tetrahymena pyriformis</i> . A pressure study	119
Ichikawa, Y, Maeda, M & Horiuchi, M, Induction of differentiated functions which are reversibly suppressed by cytochalasin B	20	Andrews, P M & Hackenbrock, C R, A scanning and stereographic ultrastructural analysis of the isolated inner mitochondrial membrane during change in metabolic activity	127
McClure, D, Miller, M & Shiman, R, Correlation of phenylalanine hydroxylase activity with cell density in cultured hepatoma cells	31	Paul, M, The polyspermy block in eggs of <i>Urechis caupo</i> . Evidence for a "rapid" block	137
Rao, P N, Hittelman, W N & Wilson, B A, Mammalian cell fusion. VI. Regulation of mitosis in binucleate HeLa cells	40	Skoczylas, B & Soldo, A T, Separation and purification of macronuclei from macronuclear fragments and micronuclei in the ciliate <i>Paramecium aurelia</i>	143
Anteunis, A & Vial, M, Cytochemical and ultrastructural studies concerning the cell coat glycoproteins in normal and transformed human blood lymphocytes. II. Comparison of lanthanum-retaining cell coat components in T and B lymphocytes transformed by various kinds of stimulating agents	47	Puwaravutipanich, T & Panyim, S, The nuclear basic proteins of human testes and ejaculated spermatozoa	153
Aketa, K, Physiological studies on the sperm surface component responsible for sperm-egg bonding in sea urchin fertilization. II. Effect of concanavalin A on the fertilizing capacity of sperm	56	Bandman, E & Gurney, T, Differences in the cytoplasmic distribution of newly synthesized poly(A) in serum-stimulated and resting cultures of BALB/c 3T3 cells	159
Wulff, U C, Desai, L S, Heuer, R, Meissner, J & Foley, G E, Human leukemic cells: Characteristics of modified methylated minor bases of low molecular weight ribonucleic acids	63	Yanishevsky, R & Carrano, A V, Prematurely condensed chromosomes of dividing and non-dividing cells in aging human cell cultures	169
Anderson, G B & Foote, R H, Effects of low temperature upon subsequent nucleic acid and protein synthesis of rabbit embryos	73	Smulson, M, Stark, P, Gazzoli, M & Roberts, J, Release of template restriction for DNA synthesis by poly ADP(ribose) polymerase during the HeLa cell cycle	175
Hanania, N, Caneva, R, Tapiero, H & Harel, J, Distribution of repetitious DNA in randomly growing and synchronized Chinese hamster cells	79	Baccetti, B, Pallini, V & Burrini, A G, Localization and catalytic properties of lactate dehydrogenase in different sperm models	183
Stenman, S, Rosenqvist, M & Ringertz, N R, Preparation and spread of unfixed metaphase chromosomes for immunofluorescence staining of nuclear antigens	87	Yasminieh, W G & Yunis, J J, The repeated DNA sequences of Microtinae. II. Localization and interdispersion of repeated sequences in <i>Microtus agrestis</i>	191
Trapman, J, Retel, J & Planta, R J, Ribosomal precursor particles from yeast	95	Harel, L, Jullien, M & Blat, C, Control by cell interaction of phosphate uptake in 3T3 cells	201
		Burczyk, J, Countercurrent distribution and partition of <i>Chlorella</i> -sensitive and -resistant strain to the lytic agent in two-phase system. I.	211

NUMBER 2, FEBRUARY 1975

Young, L G & Smithwick, E B, Extraction of ATP-phosphohydrolase activity from epididymal bull sperm and ultrastructure of flagellar degradation	223	Brenner, M, Tisdale, D & Loomis, W F, Techniques for rapid biochemical screening of large numbers of cell clones	249
Stein, G H, DNA-binding proteins in young and senescent normal human fibroblasts	237	Baumrucker, C R & Keenan, T W, Membranes of mammary gland. X. Adenosine triphosphate-dependent calcium accumulation by Golgi	

apparatus rich fractions from bovine mammary gland	253	Weber, K, The distribution of actin in non-muscle cells. The use of actin antibody in the localization of actin within the microfilament bundles of mouse 3T3 cells	333
Salomon, D S & Sherman, M I, Implantation and invasiveness of mouse blastocysts on uterine monolayers	261	Orias, E & Pollock, N A, Heat-sensitive development of the phagocytotic organelle in a <i>Tetrahymena</i> mutant	345
Burkholder, G D, The ultrastructure of G- and C-banded chromosomes	269	Grunicke, H, Hirsch, F, Wolf, H, Bauer, U & Kiefer, G, Selective inhibition of thymidine transport at low doses of the alkylating agents triethyleneiminobenzoquinone (Trenimon)	357
Gospodarowicz, D & Moran, J, Optimal conditions for the study of growth control in BALB/c 3T3 fibroblasts	279	Grüneisen, A, Rajewsky, M F, Remmer, I & Uschkoreit, J, Inhibition of ³ H-thymidine incorporation by hydroxyurea. Atypical response of mycoplasma-infected cells in culture	365
Kondo, H, Kikuta, A & Noumura, T, Studies on glucocorticoid induced cytolysis in cultured mouse lymphoma cells, L5178Y. I. Glucocorticoid specificity and cytoplasmic receptors in sensitive and resistant cells	285	Younkin, L H, In vitro response of lymphocytes to phytohemagglutinin (PHA) as studied with antiserum to PHA. II. Cell cycle analyses	374
Sell, S & Sheppard, H W, Studies on rabbit lymphocytes in vitro. XVII. Kinetics of reversible concanavalin A stimulation and restimulation of blast transformation after blocking with α -methyl-D-mannopyranoside	298	Yuyama, S, Requirement of messenger RNA synthesis for the first division in heat synchronized <i>Tetrahymena</i>	381
Sell, S, Sheppard, H W & Redelman, D, Studies on rabbit lymphocytes in vitro. XX. Demonstration of cells reactive to more than one mitogen by mixed sequential stimulation	309	Teplitz, R L, Mazie, J C, Gerson, I & Barr, K J, The effects of microtubular binding agents on secretion of IgM antibody	392
Cherny, A P, Vasiliev, J M & Gelfand, I M, Spreading of normal and transformed fibroblasts in dense cultures	317	Evans, L S & Van't Hof, J, The age-distribution of cell cycle populations in plant root meristems. Complex tissues	401
Carroll, A G, Eckberg, W R & Ozaki, H, A comparison of protein synthetic patterns in normal and animalized sea urchin embryos	328	Darżynkiewicz, Z, Traganos, F, Sharpless, T & Melamed, M R, Thermal denaturation of DNA in situ as studied by acridine orange staining and automated cytofluorometry	411
Goldman, R D, Lazarides, E, Pollack, R &			

PRELIMINARY NOTES

Carroll, E J & Epel, D, Elevation and hardening of the fertilization membrane in sea urchin eggs: Role of the soluble fertilization product	429	Ryan, J M & Cristofalo, V J, Chromatin template activity during aging in WI38 cells	456
Bae I-H & Foote, R H, Utilization of glutamine for energy and protein synthesis by cultured rabbit follicular oocytes	432	Gelfant, S, Temperature-induced cell proliferation in mouse ear epidermis in vivo	458
Rayner, C R W, Monocyte separation from whole blood. A method for experimental animals	436	Waters, B K, Wallace, R B & Freeman, K B, Synthesis of mammalian mitochondrial rRNA at low temperatures	461
Saavedra, S & Renaud, F, Studies on reactivated cilia. I. The utilization of various nucleoside triphosphates during ciliary movement	439	Scheuermann, W & Knälmann, M, Localization of ribosomal cistrons in metaphase chromosomes of <i>Vicia faba</i> (L.)	463
Jalal, S M, Markvong, A & Hsu, T C, Differential chromosomal fluorescence with 33258 Hoechst	443	Vacquier, V D & O'Dell, D S, Concanavalin A inhibits the dispersion of the cortical granule contents of sand dollar eggs	465
Harty, B J & Donnelly, W H, The production of cell aggregates in vitro by polycarbonate substrates	444	Taylor, J C, Hill D W & Rogolsky, M, Purine and pyrimidine modification of growth and surface properties of baby hamster kidney cells (BHK21/C13)	468
Smith, E M & Giese, A C, Photoreactivation in <i>Blepharisma</i>	448	Author index	
Vacquier, V D, Calcium activation of esterolytic activity obtained from sea urchin egg cortical granules	454	Subject index
